

TLC FOR YOUR FASTENER INSTALLATION TOOLS.

INCREASED EFFICIENCY. REDUCED COST. IMPROVED BOTTOM LINE.

Exclusive TLC Maintenance Program.

What is the TLC Maintenance Program?

The program is just like the preventive maintenance measures you take for your car. We'll put your entire "fleet" of fastening tools on a schedule, continually rotating them off-line for preventive care. Optimally, you'll have enough tools to run at 100% production capacity, with some off-line for maintenance. The program can also be expanded to include extra tools, or loaner tools for emergencies. The beauty of our program is that it can be catered to fit your specific needs.

Smooth-running assembly lines demand power installation tools that perform reliably, day after day. JPC's new TLC Fastener Installation Tool Maintenance Program ensures your tools will meet that standard. Based on regularly scheduled preventive care routines performed by our trained and certified experts, this exclusive program can boost productivity, extend tool life, and virtually eliminate costly line interruptions. Call us today for complete program details.

- Keep fastener installation tools at peak efficiency
- Ensure tool reliability
- Protect against line interruptions
- Extend tool life
- Minimize costly tool replacement
- Offset service costs by optimizing production efficiencies
- Enjoy 100% satisfaction guarantee

QuickTurn Repair Service.

Truck and trailer OEMs and service facilities have looked to JPC for installation tool repair since the 1970s. As a Master Huck Distributor, JPC offers certified service on all Huck tools as well as professional repairs for a host of other top brands — Pop, Gesipa, Avdel, AVK, Lobster, and more. JPC's repair facility in Reading, PA, will analyze your tool and provide you with a cost estimate before starting any work. We will do whatever it takes to meet your needs for quality service and quick turnaround time. Our cost is competitive and your satisfaction is guaranteed. JPC also stocks new units and component parts for those who repair their own tools. Call today for all the tool repair facts from JPC:
